ABOUT US

We are an independent training provider with a proven track record of delivering high-quality training and vocational qualifications to the construction sectors.

Our Mission is to deliver skills and knowledge that promotes and encourages employee and learner development to significantly improve our course participants' on-the-job productivity. This means we're committed to providing the best quality of service to our learners.

A Proven Track Record

Since 2016 we have worked closely with large construction companies across the UK to deliver qualifications specifically designed to minimise disruption to business operations, raise performance and drive better results.

Highly qualified

Our team of occupationally competent assessors each have over 20 years' experience in delivering training to companies that work on some of the UK's most complex construction projects, across a range of sectors (e.g. infrastructure, utilities, construction and engineering). We understand the demands and culture of these sectors. Because of this we can identify and deliver flexible training solutions that work efficiently.

VOCATIONAL QUALIFICATIONS

We deliver a vast array of vocational qualification assessments that provide you with the skills and qualifications needed to progress in your field. Through the years the NVQ/QCF has been further developed, becoming the leading method of qualifying people in all UK industries based on occupational competence.

In the construction industry, the NVQ/QCF is widely utilised as a career progression framework which can lead an individual through their own chosen occupational area of expertise, from operative through to senior management levels (1-7). It is also the benchmark for this progression through the industry's leading card/qualification schemes such as: CSCS and CPCs.

Need to upgrade your card?

Within our depth of expertise, we deliver a vast array of industry based qualifications that provide you with the skills and qualifications required for progression in your field.

Qualification	Job Role
Level 1	Labourer
Level 2	Skilled Operative
Level 3	Supervisor
Level 4	Supervisor of Multiple Trades
Level 5	Appointed Person
Level 6	Site Manager
Level 7	Senior Management

**Working with Construction Training Assessments
for your Vocational Qualification, we will ensure...**

Learners are correctly profiled prior to registering for a qualification. We want to be sure they are completing the correct qualification and associated units that will allow them to progress within the industry.

Some of our most popular qualifications...

- ✓ Plant Operations
- ✓ General Construction
- ✓ Specialist Lifting & Installation
- ✓ Tunnelling
- ✓ Passive Fire Protection
- ✓ Specialist Concrete
- ✓ Supervisory & Management
- ✓ Bituminous Paving
- ✓ Formwork & Steel Fixing

CONSTRUCTION PLANT TRAINING

Accredited Plant courses are available throughout the UK. Our training courses are tailored to meet the requirements of the operator and their employers, whilst still meeting the required standards set by the construction awarding organisations.

Courses are available for all experience levels from novice through to experienced work assessments. Our trained and experienced instructors will guide learners through their training course, providing a quality and professional training service.

Some of our most popular courses:

- Excavator 360 - Wheeled and Tracked
- Excavator 180
- Forward Tipping Dumper
- Wheeled Loading Shovel
- Tower Crane
- Slinger Signaller
- Crane Supervisor
- Ride on Roller
- Articulated Dump Truck
- Telescopic Handler
- Pedestrian Operator Tower Crane
- Telescopic Handler Suspended Loads

Construction Plant Operator's Scheme - CPCS

The Construction Plant Competence Scheme (CPCS) provides skills cards for the plant sector of the Construction and allied industries. It was launched in 2003 and since then over 300,000 cards have been issued across 60 categories of plant and related occupations. The CPCS Management Committee continually review and amend the Scheme in the light of on-going Industry feedback, and external factors such latest occupational health issues, technology advances and new plant types are where the Scheme has undertaken such amendments.

CPCS maintains focus on ensuring that the Scheme is centred on the principles of independent, rigorous assessment of operating ability and for assurance of for competence assurance, raising of standards expected in the plant sector.

National Plant Operator Registration Scheme - NPORS

NPORS has been supporting the industry since it was established in 1992 and is now one of the UK's leading Accreditation and Registration Bodies. The scheme offers employers the flexibility of being able to have the training conducted at their premises or site location using their own plant and machinery.

As an Accredited Training Provider (ATP), we provide NPORS assessments at our plant centre in Doncaster, as well as offering nationwide on-site assessments.

The Association of Lorry Loader Manufacturers and Importers (ALLMI)

We provide training and assessments nationwide for Lorry Loader and Slinger Signaller under the ALLMI Accreditation. Founded in 1978 at the request of the HSE (Health and Safety Executive), ALLMI remains as the UK's only Trade Association which devotes exclusively to the lorry loader industry.

HEAVY LIFTING AND PILING

Cranes and Lifting:

At Construction Training Assessments we offer a full range of crane and lifting training courses where learners will understand how to comply with legislation, regulations, Codes of Practice and industrial requirements. Our courses bring together significant principals with practical elements in order to ensure that learners receive the full scope of experience and knowledge needed to work safely in their operational environment.

- Tower Crane - Saddle Jib
- Tower Crane - Luffing Jib
- Pedestrian Operated Tower Crane
- Crawler Crane
- Compact Crane
- Mobile Crane
- All Terrain Crane
- Appointed Person
- Crane Supervisor
- Slinger Signaller
- Overhead Gantry Crane
- Spider Crane
- Marine Knuckle Boom Crane
- Hoist

We also offer accredited training for the **Report of Thorough Examination for Small Lifting Equipment and Lifting Accessories.**

Piling:

We offer a high quality of training and testing. Our training provides the delegate with the required knowledge and experience to carry out the deep foundation structural work safely.

Our training typically involves learning how to overcome ground obstructions, calculating pile capacity and load transfer to the surrounding ground whilst understanding what equipment type works with different ground conditions.

Piling Categories

- Piling Rig - driven below 20 tonnes
- Piling Rig - driven above 20 tonnes
- Piling Rig - bored below 20 tonnes
- Piling Rig - bored above 20 tonnes
- Piling Rig Attendant

Piling Rig Attendant

Piling rigs are not allowed to move without a qualified rig attendant on site; this is due to the size and complexity of the rig. The role includes checking equipment, communicating with the rig operator, guiding and locating the rig on the pile position, checking the pile is plumb during piling works, ensuring the pile is installed to specification, controlling the restricted zone around the rig and assisting in cleaning and security of the rig.

ACCESS AND WORKING AT HEIGHT TRAINING

Construction Training Assessments strongly believe working at height is a fundamental area of training in the construction industry. Our working at height training specialists deliver a full range of approved and accredited courses across the UK to ensure you stay safe whatever your job role. We offer training that covers every possible working at height scenario from the use of access platforms to rope access training and roof top safety to mobile scaffolding towers.

Our instructors are qualified, experienced and devoted to providing learners with the required knowledge and skills to keep themselves and others safe when completing their tasks at height. Whether you are an operative of access equipment or you are managing or supervising work at height, we will be able to arrange a course that meets your requirements.

Courses available include:

- IPAF Operator- all categories
- IPAF Demonstrator
- IPAF Loader Unload
- IPAF Push Around Vertical
- IPAF MEWPS for Managers
- IPAF Approved Safety Harness
- Mobile Scaffolding Towers
- Working at Height and Rescue
- Safe Vertical Ladder Ascent and Descent
- Ladder Rescue
- Tower / Platform Access and Rescue
- Safe Roof Access and Rescue
- Safety Harness Inspection and Use
- Wind Industry Related Courses

Open Courses

If you are an individual or an organisation that cannot accommodate a course at your location, why not take advantage of one of our open courses, offering a flexible and cost-effective alternative to closed courses on site.

HEALTH & SAFETY AND SPECIALIST TRAINING

Construction Training Assessments provide quality instruction and tutoring to those working in the construction and associated industries. Our instructors, assessors and associates are qualified and experienced specialists approved to deliver on our behalf. They ensure that learners are fully prepared for their respective roles within the industry, from initial entrants through to managerial roles.

Our years of knowledge and experience in the construction industry means that we understand the risks and how the correct training can keep people safe and healthy. We work with our customers to ensure everyone gets home safely at the end of their day.

Courses are interactive and combine significant principles with practical elements to ensure learners get the scope of experience and knowledge that they need to carry out their job safely and effectively.

Some of our most popular courses include:

- NEBOSH
- IOSH Working Safely
- IOSH Managing Safely
- SMSTS
- SSSTS
- HSA
- SEATS
- TWCTC
- TWSTC
- Train the Trainer
- COSHH
- First Aid
- Fire Extinguisher / Marshall
- Confined Spaces
- Abrasive Wheels
- Face Fit
- Manual Handling
- PASMA
- UKATA Asbestos Awareness
- WAMITAB
- Legionella

Training for your business

We also offer bespoke courses tailored for those companies looking for more specific training to meet their own company policies and Safe Systems of Work.
