4

Why Blade Rigg?

We are at the forefront of the industry and provide cutting edge innovation.

- ✓ Blade Rigg Ltd is an experienced access solutions provider offering a variety of rope access services across several sectors including renewables, construction, stadiums, utilities, maintenance and much more. We provide services throughout UK, Europe and further afield.
- ✓ Health & Safety is ingrained into our ethos with our Target Zero management system covering all areas of our business with the goal of zero incidents.
- ✓ With our head office in London and a 300m² workshop we fabricate and repair small-medium size structures.
- ✓ Our experience & coverage extends to Europe, the Americas, Africa, Middle East and Asia.

CUSTOMER SERVICE

We view ourselves as partners with a vested long term relationship

Beyond Project Management

Our clients are our most important asset so we make it our mission to not only meet their expectations, but exceed them. By developing strong relationships with our clients we create an understanding and insight which enables us to deliver innovative solutions. This is the foundation on which Blade Rigg is built and how we continue to develop our brand from small jobs to complete project management.

- ✓ Proposals
- ✓ Surveys
- ✓ Integrated Management
- ✓ High quality delivery
- ✓ Post Project Reports
- ✓ Technical solutions

INDUSTRIAL & ROPE ACCESS SERVICES

Specialist services on or off ropes

Eye Bolt Testing & Installation

LOLER requires all eyebolts to be tested every 6 months. Blade provides eyebolt installation plus routine testing and tagging of anchor bolts.

Specialist coatings

Dual component paints, Tri-Flex flange protection coatings, corrosion resistant coatings & painting are a specialist service offered on or off ropes.

Lift shaft Inspection & maintenance

Our technicians can inspect anything from rust, paintwork, fittings and equipment. We also do non destructive testing.

Sealing

From simple mastic application to composite materials, we are experienced in window sealing, smoke shafts, cladding, flanges, climate controlled environments and much more.

Rust Removal

We offer rust removal and cleaning for a variety of different surfaces including steel, stone, glass & more.

Cladding & Safety Netting

Installation and maintenance of façade cladding, architectural cladding or glazing. Includes safety netting for deteriorating or corroding facades.

Painting

Regular maintenance and painting is required on virtually any building or structure. Be it bridges, air traffic control rooms, buildings or other, let us advise on & carry out your routine painting.

Inspections

Do you have any snagging that needs inspection? Post construction inspection, defect investigations, assembly inspections are just a few of the areas we offer specialist inspection services.

SIGNAGE & BRANDING

In addition to our Rope Access & Industrial services, we also have a branding & signage division
