AW HEALTH & SAFETY SOLUTIONS

SPEAK TO US ABOUT YOUR REQUIREMENTS

MEET OUR CONSULTANCY TEAM

ADAM WADE CMIOSH

Adam is not only our Managing Director, he is also a well established and Chartered Health & Safety professional with over 20 years of experience delivering projects within high risk and safety critical environments.

ADRIAN KIRKBY TECHIOSH

Adrian manages the consultancy department at AW Safety and supervises training requirements, he is however so much more than just this. He is one of our dedicated Health & Safety consultants available 24 hours a day to provide all our clients with advice and support for all matters big and small. Adrian has 30 years' experience in the construction industry and over 12 years' experience in supervisory roles with companies such as KIER.

MARTIN HOYLAND TECHIOSH

Martin is one of our highly skilled Health & Safety Consultants, boasting over 25 years experience in Health & Safety, with a core background as a Horticulturalist. Martin has worked in a variety of sectors during his career spanning over 40 years with his main qualifications and expertise being associated with Health & Safety and Quality & Environmental. He has successfully dealt with complex assignments within the role of a HSEQ advisor and consultant. Further to this he also has key experience helping businesses towards ISO standards.

TRACY ROWBERRY FIIRSM GRADIOSH

Tracy is one of our dedicated consultants available 24 hours a day to our clients. She is nothing short of a consultancy queen here at AW Safety. She has over 20 years' experience in the Health & Safety field and has supported a diverse client base including the care and education sectors, charities, offices and warehousing. Tracy is a Graduate Member of IOSH and a proud fellow member of the International Institute of Risk and Safety Management (IIRSM). Tracy has previously been a director of her own Health & Safety company and brings a wealth of knowledge to AW from this previous role.

LAUREN REVEL

Lauren heads up our customer care team and looks after all consultancy requests which come through. She handles all the administrative duties for the department, freeing up our consultants to do what they do best. She has 10 years experiences in administrative roles and is a whiz with all things paperwork. She is our clients first line of contact and is there to help with all your questions big or small.

CDM REGULATIONS CONSULTANCY

SERVICES FROM **£1000+VAT** PER PROJECT

CONSTRUCTION DESIGN AND MAINTENANCE REGULATIONS

The Construction (Design and Management) Regulations 2015 places specific responsibilities on duty holders, including designers and contractors. This in turn makes them accountable for the consideration and management of Health & Safety on construction sites. Whatever your role in construction, CDM aims to improve Health & Safety in the industry by helping you:

- Sensibly plan the work in so that the risks involved are managed from start to finish
- Have the right people for the right job at the right time
- Cooperate and coordinate your work with others
- Have the right information about the risks and how they are being managed
- Communicate information effectively to those who need to know
- Consult and engage with workers about the risks and how they are being managed

**FAST AND FLEXIBLE

HEALTH & SAFETY AUDIT

SERVICES FROM £450+VAT

HEALTH & SAFETY CAN BE A MINEFIELD OF LEGISLATION

Let us take the strain out of your Health & Safety requirements by supporting you on your way to robust Health & Safety compliance.

A Health & Safety Audit will help identify your organisations specific Health & Safety issues and can act as a great starting point for developing your Health & Safety Management system.

Audits can be carried out on a stand-alone basis or can be part of a bespoke Health & Safety/Competent person service.

**PROMOTING BEST
PRACTICE FOR CONTROLS**

**PROVIDE OBJECTIVE
INSIGHT**

**PARTNERSHIP
NOT DICTATORSHIP**

PARTNER UP AND SEE HOW WE CAN SUPPORT YOU

Our expert Consultants have developed a number of different types of Health & Safety Audits to help ensure clients are meeting their legal obligations.

Our audits can be benchmarked against a specific standard such as HSG65, ISO 45001, ISO 9001 or we can audit against a specific piece of Health & Safety legislation, that will appraise the compliance of an organisation to specific Health & Safety Law.

Our auditors are Health & Safety Consultants who are members of the Institution of Occupational Safety & Health, with over five years' experience in Health & Safety auditing.

SERVICES WE OFFER

- Health and Safety Audit
- HSG65 Audit
- ISO 45001 Audit
- IOS14001 Audit
- ISO 9001 Audit
- GAP Analysis
- Compliance Audit
- Bespoke Audit

YOU ARE NOT ALONE WITH OUR HEALTH & SAFETY AUDIT SERVICES

We are there to help and guide you through the full audit process. You won't just receive a list of things you need to change, we will provide advice, suggestions and support to enable you to make the right choices for your business today, tomorrow and everyday.

HEALTH & SAFETY POLICY

SERVICES FROM £450+VAT

BUILDING COMPANY HEALTH & SAFETY FOUNDATIONS

Any company that employs 5 or more members of staff has a legal requirement to have a Health & Safety policy in place. A well constructed Health & Safety policy sets the direction for the organisation. This is administered by demonstrating senior management commitment, setting Health & Safety in context with the other business objectives. This ensures commitment to the continuous improvement of the Health & Safety performance.

The document should identify key responsibilities for Health & Safety within the organisation for both managers and staff. Further to this it will identify the Director or key Senior Manager with the overall responsibility for formulating and implementing the policy.

The general arrangements for Health & Safety within the organisation should be outlined in this policy.

SUPPORTING YOUR LEGAL OBLIGATIONS

FORWARD THINKING

CONTINUAL IMPROVEMENT

PARTNER UP AND SEE HOW WE CAN SUPPORT YOU

Our consultants have built up a wealth of experience working with organisations to design and implement effective Health & Safety policies and procedures. The Health & Safety policy should be regularly reviewed to ensure that it constantly reflects your business developments.

We can help you with policies in a number of ways:

POLICY SERVICES WHICH WE OFFER

- Identification of the policies which are needed
- Writing of bespoke policies for your organisation
- Designing and delivering training in support of policies
- Auditing against adherence company policies
- Review and update of existing policies

YOU ARE NOT ALONE WITH OUR HEALTH & SAFETY POLICY

We can outline your specific Health & Safety policies and procedures to keep your company moving forward and compliant with the latest legislation.

HEALTH & SAFETY MANAGEMENT SYSTEM

SERVICES FROM £450+VAT

AN INTEGRATED APPROACH TO SAFETY MANAGEMENT

Successful businesses are increasingly realising the benefits of an integrated approach to safety management using a Health & Safety management system.

The best businesses recognise the link between the identification and control of risk, the general health of their staff, and the success of their business. On that basis, they build safety management systems that are as integral to their organisation as any other business process.

A Health & Safety management system should embrace all areas of your business; strategy, finance, human resources, marketing, product design, manufacturing and operating systems, information management and front-line staff.

POSITIVE ATTITUDE TO
HEALTH & SAFETY

PLAN-DO-CHECK-ACT

IMPROVING
PRODUCTIVITY

PARTNER UP AND SEE HOW WE CAN SUPPORT YOU

We can support your business by developing, monitoring or improving your Health & Safety Management System.

We can help you to set up a Health & Safety management system from scratch to either meet your in-house objectives or to achieve accreditation to a recognised standard, such as:

- ISO 9001 Health & Safety Management System
- ISO 45001 Consultancy for Certification
- ISO 14001 Environmental Management System
- Integrated Management

Our consultants specialise in designing systems that are practical, helpful, sensible and concise for those businesses who also have quality management systems such as ISO 9001, we can ensure that our design of your safety management system will be integrated rather than parallel to your existing format. This will avoid duplication, additional work and resources, and help to ensure that the system is put into practice smoothly.

As experts in the field, our consultants have built up a wealth of experience in design and implementation of effective safety management systems.

We don't take the "one size fits all" approach that so many others do. We provide bespoke solutions for business, designing systems that fit with the way you want to run your business.

We can also help you manage each element of your existing systems, for example, we can write and train your staff on new policies, carry out a range of audits on your behalf, and provide assistance with planning for Health & Safety within your organisation.

YOU ARE NOT ALONE WITH OUR HEALTH & SAFETY MANAGEMENT SYSTEM SERVICES

Health & Safety is at the heart of everything we do and being in partnership with like-minded businesses, will establish a safe and healthy culture for now and for the future.

RISK MANAGEMENT

SERVICES FROM £450+VAT

MANAGING RISKS AND RISK ASSESSMENTS IN THE WORKPLACE

Risk Management is a key requirement by law for workplace activities that could cause harm or injury to people.

The law requires employers to have risk assessments for activities that pose the greatest risk.

This will require employers to have a detailed understanding of their operations where hazards are identified, but more importantly how these hazards pose a risk to health based on the activities undertaken.

From general risk management to COSHH and VDU (Display Screen Equipment) assessments we have you covered.

ANALYSE-EVALUATE-TREAT

MINIMISES
LOSSES

MAXIMISES
OPPORTUNITIES

PARTNER UP AND SEE HOW WE CAN SUPPORT YOU

We can work with you to compile a risk register of all your key activities from which you can decide those that pose a significant risk to health thus requiring a detailed risk assessment.

We can support you to complete all key risk assessments.

- Training key employees (Managers, Supervisors and employees carrying out the activities) on the techniques required to complete risk assessments, so that as new activities come on board requiring a risk assessment the knowledge is available in-house
- Agreeing a risk management process that will be used for recording all risk assessments
- Working with you to write your risk management policies

Taking the time to set up and implement a risk management process is like setting up a fire alarm, you hope it never goes off, but you're willing to deal with the minor inconvenience upfront in exchange for protection down the road.

YOU ARE NOT ALONE WITH OUR RISK MANAGEMENT SERVICES

Together we can implement a risk management plan to minimise potential risks or events before they occur to ensure your organisation saves lives, money and protects your future.

REQUEST A QUOTE TODAY CALL: 01623 827 850

FIRE RISK ASSESSMENT

SERVICES FROM £450+VAT

PUTTING THE CONTROL BACK IN YOUR HANDS

The Regulatory Reform (Fire Safety) Order 2005 requires any person who has some level of control in premises where they operate, to take reasonable steps to reduce the risks associated with fire and ensure that there are suitable emergency procedures in place should a fire occur.

Fire is a huge threat for all types of businesses and can have devastating results unless suitable safety measures are in place.

✓ FIGHT FIRE WITH FORWARD PLANNING

✓ SAFETY IN AWARENESS

✓ COMPLETE PEACE OF MIND

PARTNER UP AND SEE HOW WE CAN SUPPORT YOU

Fire Risk Assessment Services

We can undertake a full assessment of your premises, your current fire safety procedures and emergency evacuation plan. A full report will then be produced, giving prioritised recommendations and practical guidance on how to carry out the necessary changes to reduce the risk of fire.

Our documentation is designed to be very instructive so that you as a company know exactly what actions you need to take to achieve compliance. We can also provide a range of bespoke fire documentation such as fire safety log books and written fire emergency procedures.

Each fire risk assessment will identify the risks that are present in the workplace to enable them to be eliminated, controlled, avoided or accepted. This is achieved by looking for hazards, understanding potential impact and evaluating the risks and deciding if existing precautions are adequate or if more can be done.

Fire Risk Management Services

We understand that maintaining your buildings fire safety can be very daunting, which is why we provide excellent fire risk management services that includes the following:

- Provision and testing of fire extinguishers
- Fire alarm and emergency lighting maintenance
- The supply of relevant fire signage

YOU ARE NOT ALONE WITH OUR FIRE RISK ASSESSMENTS

Partnering with us will provide you with the complete peace of mind that potential fires are minimised and should the worst happen, you and your staff are fully trained and able to react and reach safety.

WHY CHOOSE AW SAFETY

We are only too pleased to thank Adam and all the team for their continued help and support

Their wealth of knowledge and experience across various industries allows them to respond quickly and positively to calls and requests, and we have found nothing to be too much trouble when providing solutions to issues that arise.

What can I say about AW Safety??

They are a great company who have supported our company for some time now and I have noticed the positive effect they have had on our performance across the board.

The training provided to our employees and supply chain is of a high standard and also engages the attendees which is a rare find. They have been instrumental in achieving our goals and maintaining our values so much so I wouldn't consider using anyone else.

Very impressed with the extent and flexibility of services provided

I am in no doubt that AW Safety's continued support has strengthened and developed our business and therefore I would highly recommend them to any company or individual.
